ABSTRACT

This report compiles data concerning the staffing and operations of the physical plant departments of U.S. colleges and universities for fiscal year 1971-72. The data are arranged by: (1) region, (2) full-time enrollment, (3) top level of academic program, (4) average number of people employed by function, and (5) unionized functions by region. (HS)

## PURPOSE

The purpose of this report is to compile data concerning the staffing and operations of the Physical Plant departments of colleges and universities for the 1971-72 fiscal year.

The grouping of information in this report is made in such a manner as to allow for extraction of information and to make analysis that may be beneficial to the reporting institutions.

## INTRODUCTION

Your Committee is very pleased with the support the membership has given to this survey. There were 287 returns and we were able to use 260. Most of those that were not useable arrived late. These returns showed a 91% increase over the 1971 survey. The membership is surely to be congratulated on their very fine support.

The identification of schools is by number, region, and arranged alphabetically. Those schools that desired not to be identified were not listed by name. They will receive an accompanying letter indicating the identifying number that was assigned to their school.

The system of grouping the survey data used in the 1971 report was felt to be very workable, therefore it was carried forward in this report. This grouping is by (1) Region, (2) Enrollment, and (3) Level of Academic Program.

The objective of these survey reports is to encourage the exchange of information in such a manner that will promote meaningful comparisons. Through these comparisons it is hoped that all might benefit from the good that each is doing and thereby optimize the management, care, operation, planning, and development of their individual departments and their respective institutions.

May we as a committee take the opportunity to thank you, the membership, for supporting the professional efforts of your Association.

## APPENDIX

COMPARATIVE STAFFING  
AND OPERATIONS STUDY FOR  
PHYSICAL PLANT FUNCTIONS OF UNIVERSITIES  
AND COLLEGES

October 15, 1972

TO: APPA MEMBERS

Dear Colleague,

During our last National meeting, in Cincinnati, your Board directed the National Standards Committee to up-date a survey that was taken by the Association in 1959. This survey was very comprehensive and overlapped the scope of the Unit Cost Survey that we are now taking each odd numbered year (last one in 1971).

After thoroughly reviewing the '59 survey and evaluating the Association's current needs, the attached survey was constructed to compare our staffing and operations. We have tried to word the questionnaire so it is easily understood. However, if there is a question, refer to the accepted "Classification of Accounts" and "Definition of Terms" that were used in the 1971 survey report.

To make the survey meaningful, the information must be accurate and returned promptly. Please participate so we can all benefit from a wide comparison. We would appreciate you returning the questionnaire not later than Friday, November 3, 1972. We anticipate having the survey published by 1 January 73 and returned to you shortly thereafter.

If you have comments or suggestions on how we might improve the survey, please send them to us.

Kindest personal regards

APPA Standards Committee  
Gene B. Cross, Chairman

Return questionnaire to: G. B. Cross  
University of Utah  
Annex Building 105  
Room 1130  
Salt Lake City, Utah  
84112
